OVERVIEW

FY 2008-09 INITIAL APPROPRIATIONS OVERVIEW

On February 7, 2008, Governor Jennifer Granholm presented her fiscal year (FY) 2008-09 State budget recommendation to the Legislature. Unlike the previous fiscal year, there were no recommendations for tax or fee increases included in the Governor's budget, and the majority of the budget was enacted by the end of July 2008. The only FY 2008-09 appropriation bills not completed during July were those for the Department of Transportation, the Natural Resources Trust Fund, and Capital Outlay. The Governor signed the FY 2008-09 Department of Transportation appropriation bill on September 27, 2008, and the FY 2007-08 Capital Outlay bill on September 29, 2008. The Michigan Natural Resources Trust Fund Board will not meet until December 2008 to formulate its FY 2008-09 appropriation recommendations for Natural Resources Trust Fund projects. Although a separate FY 2008-09 Capital Outlay budget was not enacted, capital outlay funds for various departments were appropriated within the individual departmental budgets and State Building Authority debt service was appropriated in the Department of Management and Budget.

This Senate Fiscal Agency (SFA) report, *FY 2008-09 Appropriations Report Part II - Initial Appropriations*, is the middle SFA report in a series that includes *Part I - Governor's Recommendations* and *Part III - Year-End Appropriations*. This report provides a summary of the major issues that were part of the development of the initial appropriations for FY 2008-09.

FISCAL YEAR 2008-09 INITIAL APPROPRIATIONS

On an overall basis, the Legislature approved Adjusted Gross¹ appropriations totaling \$43.8 billion. This level of Adjusted Gross appropriations represents a \$331.4 million or 0.8% increase from the year-to-date level of FY 2007-08 appropriations. Initial State Spending from State Resources² appropriations total \$28.4 billion, a decrease of \$19.2 million or 0.1% from the year-to-date level of FY 2007-08 appropriations. State General Fund/General Purpose³ (GF/GP) appropriations total \$9.7 billion, a decrease of \$279.3 million or 2.8% from the year-to-date level of FY 2007-08 appropriations. Table 1 and Figure A summarize these appropriations by fund source. Tables 2, 3, and 4 and Figures B, C, and D provide a department/budget area comparison of FY 2008-09 initial appropriations to FY 2007-08 year-to-date appropriations in terms of Adjusted Gross, State Spending from State Resources, and State GF/GP appropriations.

In general, the FY 2008-09 initial appropriations can be characterized as a continuation budget with the funding of most State programs retained at the FY 2007-08 levels, adjusted for caseload costs. There are some new programs and program expansions, along with other changes, included in the FY 2008-09 budget and highlights of these changes are summarized below.

HIGHLIGHTS OF CHANGES IN STATE APPROPRIATIONS

Water Withdrawal Assessment Program. Enactment of the Great Lakes Compact and accompanying water withdrawal regulations created additional responsibilities for the Departments of Agriculture, Environmental Quality, and Natural Resources. A total of \$850,000, \$775,000 GF/GP, is included for this purpose in FY 2008-09.

Mental Health Court Pilot Program. The Department of Community Health, in conjunction with the Judiciary, plans to establish mental health court pilots in several Michigan counties. Funding in the Judiciary budget (\$550,000) will be used to develop practices, guidelines, and sites for these courts; the appropriation in Community Health (\$1.1 million) will be used to fund treatment costs.

¹ Adjusted Gross appropriations are defined as Gross appropriations less interdepartmental grants received.

² State Spending from State Resources appropriations are Adjusted Gross appropriations less Federal, Local, and Private revenue.

³ General Fund/General Purpose appropriations are State Spending from State Resources appropriations less State Restricted revenue.

Community College and University Operations. The FY 2008-09 budget includes an average increase of 2.0% (\$5.7 million) for public community college operations, with increases for individual colleges ranging from 1.6% to 2.6%. Each public university receives an operations increase of 1.0%, which is a total of \$14.5 million in new funding.

Community Health. There are several new programs in FY 2008-09 but the largest is the \$10.4 million Ambulance Quality Assurance Assessment Program (QAAP). Assuming legislation passes to establish this new QAAP, it will be funded from a \$4.8 million tax on ambulance services. This revenue will be combined with Federal Medicaid match revenue to support a \$10.3 million increase in Medicaid rates paid to ambulance providers, and the State will retain \$700,000 in gainsharing revenue. The largest dollar increase in the budget is for Medicaid base funding: \$206.7 million Gross and \$64.9 million GF/GP, which reflects the Medicaid consensus agreement. The budget also contains an increase in the Federal Medicaid match rate from 58.1% to 60.3%, leading to a \$173.7 million decrease in GF/GP costs.

The Department of Community Health budget includes additional funding of \$5.3 million for reimbursement to physicians for targeted primary care services; \$629,200 to allow a 25-cent-per-script increase in the Medicaid pharmacy dispensing fee; and \$1.3 million to provide Medicaid-eligible residents of adult foster care homes and homes for the aged, with an \$8 increase in the monthly personal care supplement.

Corrections. The largest funding increase is \$14.9 million for the estimated full-year costs of Hepatitis C treatment, which includes testing for prisoners at intake, lab tests, vaccinations, and liver biopsies. The budget expands mental health care funding by \$4.8 million, including \$2.1 million for two additional outpatient mental health treatment teams.

Throughout the Department of Corrections, there are funding reductions of approximately \$67.3 million; among them are: \$15.7 million from changing the relief factor for correctional officer assignments; \$15.2 million through centralization and regionalization of business and food services; and \$13.2 million from the closure of Scott Correctional Facility.

Human Services. There are several rate increases in the FY 2008-09 budget, including: \$10.0 million to provide a 2.5% increase in child day care rates; \$5.5 million to increase the private child-placing agency rate from \$25 to \$27 per day; and \$1.4 million to return indigent burial rates to those provided in FY 2006-07. The budget also includes \$8.1 million in additional Federal Temporary Assistance for Needy Families (TANF) funding to allow a \$1 per-person per-month increase in the Family Independence Program (FIP) grant and to increase the FIP clothing allowance from \$43 to \$88 per year.

The budget provides \$300,000 GF/GP to implement a child welfare pilot project in Kent County; the county will purchase all child welfare services from private agencies and it is assumed that this effort will result in \$300,000 in GF/GP savings for the foster care program. The budget also includes a net reduction of \$31.5 million to reflect base adjustments that were part of the caseload consensus agreement.

Labor and Economic Growth. There is an expansion of the No Worker Left Behind Program from \$37.0 million in FY 2007-08 to \$96.0 million in FY 2008-09; the \$96.0 million total includes \$15.0 million in new GF/GP funding. Also larger is the Michigan Nursing Corps grant program, which is increased from \$1.5 million to \$5.0 million, all GF/GP funding. On the regulatory side of the budget, there are two major funding increases: \$9.4 million GF/GP for the Michigan Unemployment Agency to pay interest on money borrowed from the Federal government to meet unemployment benefit obligations; and \$6.7 million in State restricted revenue for 50.0 new full-time equated (FTE) positions to expand existing oversight efforts regarding financial and mortgage agencies.

Management and Budget (DMB). Funding of \$500,000 GF/GP is added for a new Supplier Diversity Program to increase the number and types of vendors submitting bids for State contracts. The appropriation for State Building Authority (SBA) rent that the State pays for State-financed capital outlay building projects was moved to the DMB in FY 2006-07; an increase of \$5.0 million GF/GP brings the FY 2008-09 SBA rent total to \$231.8 million.

Military and Veterans Affairs. Grants for veterans service organizations are increased by \$117,300 or 3.0%, for total FY 2008-09 funding of \$4.0 million.

School Aid. The budget provides about \$257.0 million in additional spending for the Foundation Allowance, which equates to increases in per-pupil funding ranging from a minimum of \$56 to a maximum of \$112. The budget includes a new \$15.0 million 21st Century Schools Program that provides grants to districts with less than a 70.0% graduation rate, for the planning and start-up of newly configured small schools. Other funding increases include: \$42.0 million more for debt service on *Durant* bonds; a \$22.2 million increase in the School Aid Fund's share of cash flow borrowing costs; and an additional \$10.0 million for early childhood education.

State Police. The budget includes \$7.3 million GF/GP for a new trooper school which is expected to graduate 80-plus troopers in January 2009. The budget also includes \$2.5 million in new funding to add palm prints to the Automated Fingerprint Identification System; an additional \$2.0 million for statewide laboratory services; and \$2.6 million GF/GP to address the Michigan State Police's public safety communication system's deficit.

Transportation. Although Federal aid is increasing by \$260.3 million, \$133.0 million of those Federal dollars come from the transfer of Capital Outlay projects to the Transportation budget, and there is a reduction in State restricted transportation revenue of approximately \$37.0 million. There is language in the FY 2008-09 budget (Sec. 384) that allows the Department of Transportation to finish the Detroit River International Crossing (DRIC) study but prohibits any activity associated with finishing the DRIC study that would bind the State in any way regarding construction.

Treasury-Operations. The largest increase in the budget is the transfer of \$14.2 million from the Department of Natural Resources (DNR) for payments in lieu of taxes (PILT) that are made to local units of government for land owned by the DNR. The budget includes an additional \$3.4 million GF/GP to continue the Michigan Business Tax implementation process, and funds three new programs: \$1.4 million for public-private partnership investments; \$1.0 million to hire a consultant to evaluate pension funds; and \$500,000 for a property tax appeal program to assist local units or school districts in defending appeals of utility personal property tax assessments.

Treasury-Revenue Sharing. There is an increase of \$8.1 million for cities, villages, and townships that received statutory revenue sharing payments during FY 2006-07. There is also an appropriation of \$2.4 million for counties that accelerated their tax collections in FY 2004-05 and have now depleted their reserve funds.

Treasury-Strategic Fund Agency. The budget includes a new \$1.2 million program to fund business incubators in Berrien, Genesee, Macomb, Washtenaw, and Wayne Counties. There are several sizable appropriation reductions, including a \$55.7 million reduction in the Michigan Promotion Program, dropping it from \$61.4 million to \$5.7 million, to remove one-time funding for business and tourism promotion used over two fiscal years, and a \$13.0 million reduction in the 21st Century Jobs Trust Fund's grant and loan program.

DEBT SERVICE APPROPRIATIONS

There are debt service appropriations in four separate budget areas: Management and Budget, School Aid, Transportation, and Treasury. The table below compares the FY 2008-09 debt service appropriations to those of FY 2007-08.

PROGRAM TRANSFERS

There is a Gross appropriation total of \$301.3 million transferred from various FY 2007-08 State budget areas into different budget areas for FY 2008-09. The two major components are the transfer of \$250.0 million from Capital Outlay to individual State departments, and the transfer of \$36.5 million from various State departments to the Civil Service Commission for the consolidation of the human resources function. [Table 5](#) outlines, by department, the FY 2007-08 programs transferred out and their new FY 2008-09 location and appropriation.

GUBERNATORIAL VETOES

The Governor vetoed \$23.2 million of Adjusted Gross appropriations and \$1.8 million of GF/GP appropriations. [Table 6](#) provides a summary of these vetoes by department. The largest veto is the \$11.6 million for horse racing programs removed from the Department of Agriculture. The majority of vetoes are in the Department of Human Services. The \$4.4 million in Human Services vetoes includes funding for various special projects.

TOBACCO SETTLEMENT APPROPRIATIONS

The State of Michigan is expected to receive an estimated \$293.4 million during FY 2008-09 as a result of the master settlement agreement between the United States tobacco industry and 46 states. Table 7 provides a summary of the appropriations that are supported by tobacco settlement revenue. The budget includes \$242.2 million of tobacco settlement appropriations. The largest portion of the appropriation supports scholarship programs in the Higher Education budget. Other programs supported with a significant amount of tobacco settlement revenue include the Medicaid program in the Department of Community Health and economic development programs in the Strategic Fund Agency. The FY 2008-09 budget also includes the use of \$39.1 million of tobacco settlement revenue for debt service payments on tobacco securitization bonds issued to help balance the FY 2006-07 State budget and a \$10.0 million transfer to supplement General Fund revenue.

PROJECTED YEAR-END BALANCES

The level of the FY 2008-09 appropriations is based on the May 2008 consensus estimate of GF/GP and School Aid Fund revenue. The initial GF/GP and School Aid Fund appropriations have met the constitutional requirement of being in balance between estimated revenue and enacted appropriations. Table 8 provides a summary of the SFA estimate of the FY 2008-09 GF/GP year-end balance. Estimated FY 2008-09 GF/GP revenue will total \$9.7 billion. Initial FY 2008-09 GF/GP appropriations total \$9.7 billion, resulting in a projected \$1.7 million balance. Table 9 provides a summary of the SFA estimate of the FY 2008-09 School Aid Fund year-end balance. A comparison of estimated revenue with initial appropriations leads to a zero year-end balance.

STATE EMPLOYMENT LEVELS

Table 10 and Figure E provide a summary of State classified FTE positions appropriated in FY 2008-09 versus the year-to-date level of FTEs appropriated in FY 2007-08. Total appropriated FTEs in FY 2008-09 equal 56,258.1, a decrease of 783.6 or 1.4% from the prior fiscal year level. State departments with the largest employment decreases include Corrections and Human Services. The 436.0 FTE increase in the Department of Management and Budget is attributable primarily to the consolidation of the human resource function within the Civil Service Commission, which is appropriated in the DMB.

STATE PAYMENTS TO LOCAL UNITS OF GOVERNMENT

Article IX, Section 30 of the State Constitution of 1963 prohibits the State from reducing the portion of State appropriations paid to units of local government below the FY 1978-79 level of 48.79%. The initial FY 2008-09 appropriation bills exceed this minimum constitutional requirement by \$2.2 billion. Table 11 provides a summary of the calculations used to determine the State's compliance with this constitutional requirement for FY 2007-08 and FY 2008-09. Table 12 provides a summary of State appropriations by department counted as payments to local units of government.

**FY 2008-09 Change From
FY 2007-08 Year-to-Date**

A. NEW PROGRAMS

Water Withdrawal Assessment Program

Enactment of the Great Lakes Compact and accompanying water withdrawal regulations created additional responsibilities for the Department of Agriculture related to monitoring water withdrawals by farm operations. The budget includes one position and General Fund dollars for the additional expenses of the new program.

FTE	1.0
Gross	130,000
GF/GP	130,000

B. PROGRAM INCREASES

Bovine Tuberculosis

The budget includes a net increase to the Bovine Tuberculosis eradication program. There is an increase in General Fund support for activities to contain and eradicate Bovine Tuberculosis from the cattle and deer herds in the State. The budget also reduced the restricted funding from the Agriculture Equine Industry Development Fund (AEIDF) that previously funded the Bovine TB program and provided a slight increase in Federal funding to allow expenditure of additional Federal funding that is expected in FY 2008-09. The reduction in appropriations for the Bovine TB program from the AEIDF was a transfer of that funding to horse racing programs. The Governor vetoed all of the horse racing line items and requested a supplemental appropriation to restore the AEIDF to the Bovine TB program and appropriate the horse racing line items at their previous levels.

FTE	12.0
Gross	287,300
Federal	10,900
Restricted	(1,423,600)
GF/GP	1,700,000

C. PROGRAM ELIMINATIONS

Horse Racing

The Governor vetoed the line items in the initial budget that supported horse racing and State and county fairgrounds, which eliminated these programs. The Legislature had moved \$1,471,600 in appropriations from the Agriculture Equine Industry Development Fund from the Bovine TB program to horse racing programs. The increase provided to these programs by the Legislature added \$991,600 to horse racing programs and \$480,000 to building and tracks improvements at State and county fairgrounds. In the veto letter, the Governor indicated intent to restore funding for these programs to current-year levels. Public Act 279 of 2008 appropriated funding for horse racing functions at the FY 2007-08 level of \$10,160,300, restoring most of the amount vetoed. Funding was not provided for building and track improvements.

D. PROGRAM REDUCTIONS

1. Emerald Ash Borer Reduction

Federal funding for Emerald Ash Borer eradication activities in Michigan is declining. The budget reduced appropriations to reflect the decreased Federal support.

Gross	(5,000,000)
Federal	(5,000,000)
GF/GP	0

2. Pesticide and Plant Pest Management Reduction

Federal funding for this program was expected to decline and the budget reflects the change. The total reduction in the appropriation for this program is composed of \$800,000 from the United States Department of Agriculture and \$600,000 from the Environmental Protection Agency.

Gross	(1,400,000)
Federal	(1,400,000)
GF/GP	0

3. General Fund Reduction

In order to meet lower revenue estimates for the General Fund, the budgets for all State departments include reductions in General Fund appropriations. For the Department of Agriculture, the total reduction was divided among the food safety, environmental stewardship, and laboratory services programs.

Gross	(77,900)
GF/GP	(77,900)

4. Management Services Reduction

The budget includes a reduction to Management services, which is an administrative function. The reduction could impact up to two positions, but details on how the reduction will be implemented are unknown.

Gross	(150,000)
GF/GP	(150,000)

K. VETOES

1. Cooperative Resources Management Initiative

The Governor vetoed an interdepartmental grant of \$1.0 million from the Department of Natural Resources to the Department of Agriculture, which would have distributed the funds in the form of grants to soil conservation districts to provide forestland management services to private foresters.

2. Horse Racing

The Governor vetoed a total of \$11,631,900 of appropriations from the Agriculture Equine Industry Development Fund in the horse racing and county fair line items. The Conference Report moved funding appropriated from the AEIDF from the Bovine Tuberculosis program to purposes in the Fairs and Expositions unit to increase the purses and awards available for horse racing and building and track improvements at local and county fairs. The veto letter stated intent to appropriate the horse racing funding to the FY 2007-08 levels through a supplemental appropriation and to restore the \$1,423,600 of AEIDF appropriations to the Bovine TB program. Public Act 279 of 2008 restored appropriations for the horse racing line items to their FY 2007-08 level of \$10,160,300. Action has not been taken yet to restore the AEIDF funding to the Bovine TB program.

FY 2008-09 Appropriation

Due to revenue issues, the Governor did not make a recommendation for the FY 2007-08 Capital Outlay budget until January 14, 2008. Due to various delays, the aeronautics portion of the FY 2007-08 Capital Outlay budget did not pass the Legislature until June 10, 2008, and the balance of the FY 2007-08 Capital Outlay budget did not pass the Legislature until September 25, 2008. During this period, no progress was being made on the FY 2008-09 Capital Outlay appropriation bill. On June 6, 2008, the Governor submitted a revised recommendation transferring all FY 2008-09 departmental capital outlay appropriation items to the respective departmental appropriation bills. Departments affected included the Department of Agriculture, Department of Management and Budget, Department of Military and Veterans Affairs, Department of Natural Resources, and Department of Transportation. 4. Global Positioning System Tethers (GPS)

In FY 2007-08, partial-year funding was provided for 500 GPS tether units. The budget includes the remaining \$301,800 for the FY 2007-08 GPS tethers, as well as \$3,304,000 and 20.0 FTEs for 500 additional GPS tethers.

FTE	20.0
Gross	3,605,800
GF/GP	3,605,800

5. Field Office Lease Space

The budget includes \$231,100 to expand field office lease space to accommodate increased workload and staffing at the Lincoln Park Parole Office, as well as for the replacement lease space for the Outer District Parole Office, which was destroyed by fire.

Gross	231,100
GF/GP	231,100

6. Parolee LEIN Checks

Public Act 487 of 2006 requires the MDOC to run quarterly Law Enforcement Information Network (LEIN) checks on violent parolees, who account for approximately 50.0% of all parolees. The appropriation includes \$79,900 for a new employee to run the additional 33,400 LEIN checks annually.

FTE	1.0
Gross	79,900
GF/GP	79,900

7. Community Corrections and Substance Abuse Treatment	Gross	600,000
	GF/GP	600,000
The appropriation increases funding for Community Corrections Comprehensive Plans and Services and substance abuse treatment by \$225,000 each. Additionally, the budget provides \$150,000 for an additional seven residential beds in the community for probationers and parole or probation violators.		
8. Equipment and Special Maintenance	Gross	2,000,000
	GF/GP	2,000,000
In the FY 2006-07 and FY 2007-08 appropriations, \$2.0 million for equipment and special maintenance was removed in order to appropriate the funds in the Capital Outlay budget. The FY 2008-09 appropriation replaces the \$2.0 million in the budget to fund the maintenance of the MDOC's land, equipment, and building space.		
9. Correctional Officer Training	Gross	1,875,400
	GF/GP	1,875,400
The appropriation includes additional funding for correctional officer training. This line item funds wages, training manuals, certification, uniforms, and travel for recruits at a cost of \$18,250 per recruit.		
10. Inmate Legal Services	Gross	390,000
	GF/GP	390,000
The budget includes an additional \$390,000 for inmate legal services. The funding in this line item provides for the legal writer program, pursuant to Federal court order in the <i>Knop v. Johnson</i> case. This program provides minimal access to courts for prisoners who are unable to draft and file legal pleadings. The original appropriation for this line item had remained at \$314,900 since FY 2001-02, and since FY 2003-04, \$390,000 has been transferred into the line item every year.		
11. Emergency Response Team Equipment	Gross	357,500
	GF/GP	357,500
There are 21 emergency response teams with 650 members at various correctional facilities throughout the State that provide emergency response services both to the correctional facilities and to law enforcement agencies. The budget provides \$357,500 for equipment updates such as updating the original bullet-proof vests and gas masks at a cost of \$550 per member.

FY 2007-08 Year-to-Date**

12. Utilities

Gross	241,600
GF/GP	241,600

The appropriation includes an additional \$215,700 for trash removal service contracts. The new three-year trash removal service contracts are more expensive due to increases in fuel prices and tipping fees. The budget also includes an additional \$25,900 to provide for the 5.2% water rate increase and 4.9% sewer rate increase for the Huron Valley Complex.

13. Work Crew at Pugsley Correctional Facility

Gross	34,500
GF/GP	34,500

Before its closure, Camp Sauble provided prisoner work crews to Oaks Correctional Facility, and the funding for work crew transportation and wages was removed when the facility closed. The budget includes \$34,500 for Pugsley Correctional Facility to send work crews to Oaks.

C. PROGRAM ELIMINATIONS

1. Scott Correctional Facility Closure

FTE	(10.0)
Gross	(13,166,000)
GF/GP	(13,166,000)

The budget provides for the closure of Scott Correctional Facility in May 2009. The female prisoners at Scott will be paroled or transferred to the Huron Valley Complex (HVC). The male prisoners at the HVC will be paroled or transferred to other facilities as appropriate, because the HVC will become an all-female facility. The budget reduces Scott by \$14,566,700, reduces the prisoner education program by \$1.1 million and 10.0 FTEs, and adds \$2,500,700 to the HVC.

2. Remaining Southern Michigan Correctional Facility Funding Elimination

Gross	(3,072,000)
Restricted	(7,500)
GF/GP	(3,064,500)

The appropriation removes the remaining funding for Southern Michigan Correctional Facility, which closed in November 2007.

3. Mental Health Study

Gross	(400,000)
GF/GP	(400,000)

The budget does not include funds appropriated in FY 2007-08 for the purpose of contracting for a study of mental health in the prisons.

4. Camp Manistique Maintenance and Repurposing

Gross	(120,000)
GF/GP	(120,000)

The budget removes funds for security and utility costs for closed Camp Manistique, and a feasibility study of potential future uses of closed facilities in the Upper Peninsula.

FY 2007-08 Year-to-Date**

D. PROGRAM REDUCTIONS

1. Public Works Crews

Gross	(2,516,900)
GF/GP	(2,516,900)

The budget reduces GF/GP funding for public works crews. While nonprofit organizations and units of government pay user fees for the crews, GF/GP funding covers most of the cost of supervising and transporting the offenders. Unless savings are found elsewhere in the correctional facilities, the number of public works crews will be reduced.

2. Telephone Fees and Commissions

Gross	(3,856,400)
Restricted	(3,856,400)
GF/GP	0

In conjunction with replacing a portion of the telephone fees and commissions with GF/GP funding, the appropriation removes all fees from community re-entry centers (\$1,619,600) and field operations (\$902,600) with no GF/GP replacement. Additionally, the budget replaces only a portion of the fees in the County Jail Reimbursement Program and the Felony Drunk Driver Jail Reduction and Community Treatment Program, resulting in \$976,900 and \$357,300 reductions in these programs, respectively.

3. Central Office

FTE	(5.0)
Gross	(800,000)
GF/GP	(800,000)

The appropriation reduces the central office by 5.0 FTEs for savings of \$400,000, as well as additional savings of \$400,000 through additional central office reductions.

4. Other Reductions

Gross	(515,600)
Restricted	(200)
GF/GP	(515,400)

The budget includes a Department of Information Technology (DIT) administrative reduction of \$5,600 gross and \$5,400 GF/GP. The removal of several one-time equipment costs amounts to a \$510,000 reduction in the budget.

E. FUNDING SHIFTS

1. Telephone Fees and Commissions

Gross	0
Restricted	(7,221,300)
GF/GP	7,221,300

The budget eliminates the remaining 10 months of restricted revenue from telephone fees and commissions, which are collected from people who receive telephone calls from prisoners. Two months of revenue had been eliminated in the FY 2007-08 budget. Of the \$11,077,700 in fees removed, \$7,221,300 was replaced with GF/GP support.

**FY 2008-09 Change From
FY 2007-08 Year-to-Date**

2. Public Works User Fees

The appropriation halves public works user fees and replaces the \$1,286,900 with GF/GP funding. Fees are paid by nonprofit organizations and units of government for work done by prisoner crews. In the FY 2007-08 budget, these fees had been doubled, so the FY 2008-09 appropriation returns them to the FY 2006-07 level.

Gross	0
Restricted	(1,286,900)
GF/GP	1,286,900

F. PROGRAM TRANSFERS

The budget transfers the \$1,079,700 in human resources optimization costs previously contained in the budget to the Civil Service Commission within the Department of Management and Budget (DMB). Additionally, the budget transfers the MDOC's human resources responsibilities, including \$12,312,900 Gross, \$12,137,800 GF/GP, and 136.0 FTEs, to the Civil Service Commission within the DMB pursuant to Executive Order 2007-30. In accordance with Executive Order 2007-31, the budget transfers internal audit responsibilities, including 6.0 FTEs, to the DMB, although the funding for these FTEs remains in the MDOC budget.

FTE	(142.0)
Gross	(13,392,600)
Restricted	(175,100)
GF/GP	(13,217,500)

G. OTHER ISSUES

1. Correctional Facility Staffing

The appropriation saves \$15,701,400 by changing the relief factor for correctional officer assignments. The relief factor for a seven-day assignment will decrease from 1.80 to 1.75, meaning that facilities will be funded and staffed for 1.75 FTEs per assignment, rather than 1.80, generating savings in overtime and hiring. These savings are accompanied by a 221.7 reduction in FTE authorization. The budget also saves \$6.4 million and 133.2 FTEs by reducing the number of custody officers by 3.6 FTEs at all facilities except Huron Valley, Mound, and Scott correctional facilities. The budget saves \$200,000 by implementing a pilot program at Standish Correctional Facility that will change custody supervisor shifts to 12 hours.

The budget provides \$412,300 and 5.4 FTEs to Deerfield Correctional Facility for an afternoon shift front desk officer, and officers to oversee the food service area during the morning and afternoon shifts. The appropriation also provides \$801,000 for nurse signing and retention bonuses. The new union contract includes retention bonuses for nurses at some correctional facilities in Jackson. All nurses employed at Duane Waters, Egeler, and Parnall for at least 2,080 hours will receive a retention bonus of \$5,000. Previously, the bonus was for \$1,500 and only covered Duane Waters. Additionally, the contract increased the signing bonus for nurses to \$5,000, up from \$1,500.

GF/GP	(21,088,100)

**FY 2008-09 Change From
FY 2007-08 Year-to-Date**

2. Centralization and Regionalization

The budget saves \$4,995,300 through business office efficiencies. Full-year savings also are included for the regionalization of business offices, maintenance shops, warehouse, and food service operations that began in FY 2007-08, saving an additional \$1,071,000. In addition, the budget saves \$5,871,200 (\$1,205,400 GF/GP) and 90.0 FTEs by centralizing prison stores and regionalizing warehouses. This measure eliminates store revenue as a source of restricted funds. The creation of regional warehouses results in additional operational savings totaling \$3,231,900.

FTE	(90.0)
Gross	(15,169,400)
Restricted	(4,665,800)
GF/GP	(10,503,600)

3. Other Changes

The budget reflects \$4.0 million in expected prisoner health care contract savings. The budget does not include \$1,412,000 in Federal funds appropriated in FY 2007-08 through a contingency fund transfer. The budget reduces authorization for FTEs that are not funded in Planning, Community Development, and Research (2.0) and the Michigan Prisoner Reentry Initiative (MPRI) Education Program (15.0). Additionally, the dialysis unit has been moved from closed Southern Michigan to Ryan Correctional Facility. The funding is transferred to Ryan, but authorization for 5.4 FTEs is added to Ryan in the budget because Southern Michigan Correctional Facility was not appropriated any FTEs in FY 2007-08 from which to complete the transfer.

FTE	(11.6)
Gross	(5,412,000)
Federal	(1,412,000)
GF/GP	(4,000,000)

4. Information Technology

The budget includes \$300,000 for partial funding to upgrade 100 servers and remove 80 servers by consolidating small sites. The consolidation will save on support and licensing costs. The MDOC currently has 180 file and print servers throughout the State, 174 of which are obsolete. The appropriation also includes \$750,000 to replace a portion of the 5,010 personal computers in the MDOC that are obsolete. The computers will be leased at a cost of \$360 annually per machine, as well as a one-time installation cost of \$450,900.

Gross	2,076,400
GF/GP	2,076,400

The budget includes \$976,400 to fund an increase in the Office Automation rate charged to departments by DIT. The charge increased from \$625 to \$855 per desktop computer and includes technical support, server hosting, and life cycle refresh for file, print, and email servers. The appropriation includes a \$50,000 interdepartmental grant (IDG) to the Judiciary for use of the Judicial Data Warehouse by MDOC employees.

H. UNCLASSIFIED SALARIES - NONE

I. FEE INCREASES - NONE

J. ECONOMIC ADJUSTMENTS

The economic adjustment amount includes standard economic factors applied to salaries and wages, retirement, insurance, workers' compensation, fuel and utilities, food, and building occupancy charges consistent with factors applied to all budgets.

IDG	12,600
Federal	9,500
Local	600
Restricted	158,300
GF/GP	4,883,900

K. VETOES

The Governor vetoed \$980,000 for an IDG to the Judiciary for the administration of a pilot program for intensive supervision of probationers. The probation officers supervising the caseloads in the Intensive Probation Pilot Program were to report to a circuit court judge, but remain employees of the MDOC.

A. NEW PROGRAMS

1. Water Withdrawal Assessment Program

Enactment of the Great Lakes Compact and accompanying water withdrawal regulations created additional responsibilities for the Department of Environmental Quality for operation of an Internet-based water withdrawal assessment tool, continuing maintenance of the assessment tool and monitoring system, increased staff oversight of allowable withdrawals, and support for the Water Resources Conservation Advisory Council. The budget includes full-time equated (FTE) positions and funding from the Clean Michigan Initiative Clean Water Fund and the General Fund to support the new expenses of the program. Total appropriations for this program are \$895,000.

D. PROGRAM REDUCTIONS

1. Drinking Water Revolving Loan Fund

Gross	(1,106,900)
GF/GP	(1,106,900)

In order to meet reduced General Fund revenue estimates, the budget reduces the State match for Federal funding for the Drinking Water Revolving Loan Fund. The State provides a 20% match to Federal dollars, so this reduction in General Fund support may result in the loss of Federal funding as well, depending on the amount of Federal funds available for this program.

2. Clean Michigan Initiative Cleanup Projects

Gross	NA
Restricted	NA
GF/GP	NA

The budget removed funding for new cleanup projects under the Clean Michigan Initiative (CMI) program. Existing CMI projects will continue since many of them take multiple years to complete, but no new projects will be started in FY 2008-09. In previous fiscal years, these appropriations were described in a separate section of this report and \$5,663,200 was appropriated in FY 2007-08 for this purpose. With the removal of funding for new projects, a separate section is no longer necessary.

E. FUNDING SHIFTS

General Fund Increase

Gross	0
Restricted	(2,473,300)
GF/GP	2,473,300

Permit and license fee revenue from selected programs in all of the Department's divisions is expected to fall short of the amounts necessary to maintain the current levels of service. The budget includes a partial fund shift from State restricted permit fee revenue to General Fund dollars to support the programs. A similar fund shift was enacted in FY 2007-08 for \$11.0 million and that was continued for FY 2008-09 for a total fund shift of \$13,473,300.

Human Resources Consolidation

G. OTHER ISSUES

1. FTE Adjustments

On a statewide basis, the budget includes changes to the number of full-time equated positions appropriated in departments. The adjusted numbers reflect the actual number of FTEs that appropriations can support, which results in a reduction in FTEs for the Department of Environmental Quality.

2. Internal Audit

Internal audit functions are being consolidated into the Department of Management and Budget. The budget moves \$228,500 into a new line item that will provide support for this function through an interdepartmental grant process.

K. VETOES

1. Reverse Vending Machines

The Governor vetoed the use of \$2.0 million from the Cleanup and Redevelopment Trust Fund to reimburse retailers for the cost of retrofitting reverse vending machines to accept Michigan-only returnable beverage containers. The funding would have been transferred to the Environmental Protection Fund and spent from that Fund.

2. Environmental Ombudsman

The Governor vetoed funding of \$250,000 that had been added from various restricted funds for a position in the Legislative Council that would have served as an ombudsman for the general public on environmental issues and facilitated discussions with the Department of Environmental Quality as needed.

1. University Operations

Gross	14,527,300
GF/GP	14,527,300

An increase of 1.0% is added to each university's operations line item. Column 3 of Table 1 outlines the dollar amount each university receives. The Governor originally recommended a total increase of 3.0%, with individual university increases ranging from 2.3% to 6.2%, based on a three-part formula. The Senate and House had provided across-the-board increases of 3.0% and 2.7%, respectively.

2. Agricultural Experiment Station (AES) and Cooperative Extension Service (CES)

Gross	633,200
GF/GP	633,200

The AES and CES are agricultural economic programs operated by Michigan State University that provide services throughout the State. Similar to the increases for university operations, 1.0% is added to AES (\$340,000) and CES (\$293,200) for FY 2008-09 total funding levels of \$34.3 million and \$29.6 million, respectively. The Governor and Senate had recommended a 3.0% increase while the House had added 2.7%.

3. Midwestern Higher Education Compact

Gross	5,000
GF/GP	5,000

Public Act 195 of 1990 entered Michigan into the Midwestern Higher Education Compact whose mission is to advance Midwestern higher education through interstate cooperation and resource sharing. Twelve states are Compact members: Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. The work of the Compact is financed through annual member state dues and foundation grants. The FY 2008-09 budget includes an increase of \$5,000 to reflect the new annual dues amount of \$95,000. The Governor, Senate, and House all included the dues increase.

Public Act 479 of 2006 created the Michigan Promise Grant Program to provide merit-based grants of up to \$4,000 to students who score well on the high school Merit Exam and/or who complete two years of postsecondary education with at least a 2.5 grade point average. The FY 2008-09 appropriation of \$90.5 million pays for the \$1,000 biennial grants (\$1,000 per year for the first two years of study) for students enrolled in college who scored well on the Merit

5. Tuition Incentive Program (TIP)

Due to an increase in TIP students attending college, the appropriation for TIP is increased by \$4.1 million GF/GP from the initial FY 2007-08 appropriation for the program. The program provides an incentive to Medicaid-eligible middle school and high school students by promising to pay for their college tuition if they graduate from high school. It pays for two years of associate-level tuition costs and up to an additional \$2,000 for study at a four-year institution. There were 10,462 TIP students in FY 2006-07 and approximately 12,000 TIP students in FY 2007-08. The FY 2008-09 TIP appropriation is \$25.2 million, financed from \$15,850,000 in Merit Award Trust Fund revenue and \$9,350,000 in State GF/GP revenue.

Michigan Merit Awards

Public Act 94 of 1999 created the Michigan Merit Award Program, which provides merit-based grants of up to \$3,000 to students who scored well on the middle school and high school MEAP test or Merit Exam. The high school class of 2000 was the first eligible graduating class and the class of 2006 was the last. Beginning with the high school graduating class of 2007, Michigan Merit Awards were replaced by Michigan Promise Grants (item B4). In order to fulfill Merit Award commitments for previous graduating classes, \$5.2 million is estimated to be needed for FY 2008-09, resulting in an appropriation reduction of \$54.8 million from the initial FY 2007-08 \$60.0 million funding level.

E. FUNDING SHIFTS

In FY 2007-08, the grants and financial aid appropriations included \$3.3 million from State restricted revenue sources that are not available for FY 2008-09: \$1.4 million from Tuition Grant carry-forward funds, \$1.2 million from the Michigan Higher Education Assistance Authority Operating Fund, and \$0.7 million from a State income tax check-off for children of veterans. These State restricted fund sources were replaced with \$3.3 million in State GF/GP revenue.

G. OTHER ISSUES

Gross (138,736,000)
GF/GP (138,736,000)

1. FY 2007-08 One-Time Adjustment

There is a technical adjustment to the FY 2007-08 base appropriations for the 15 public universities included in the development of the FY 2008-09 budget: the reduction of \$138.7 million State GF/GP to recognize the one-time repayment to the universities of the August 2007 payment delay.

2. Appropriation Act Format

The FY 2008-09 act retains the budget bill format initially used in FY 2007-08 that separates Higher Education budget line items into four articles:

- Article 1: Total summary unit for appropriation act
- Article 2: Research universities (Michigan State, UM-Ann Arbor, Wayne State)
- Article 3: State universities (remaining 12 universities)
- Article 4: State and regional programs, grants, and financial aid

During the budget development process, the Governor and the House supported the retention of the "article" format while the Senate passed a bill with all 15 public universities listed in alphabetical order in a single Part 1, with boilerplate language in Part 2.

3. Major Boilerplate Changes

Postsecondary Student Data System. A progress report is required regarding the development of student-level data that could be submitted to the Center for Educational Performance and Information. (Secs. 216 and 316)

Conflicts of Interest. Intent language is added for governing boards of public universities to examine operations for potential conflicts of interest. (Sec. 217)

State Competitive Scholarships and Tuition Grants. Intent language is added to secure a 1.0% increase for both of these programs. (Secs. 301 and 302)

Future Farmers of America. \$80,000 of Michigan State University's operations appropriation is earmarked for the Michigan Future Farmers of America Association. (Sec. 434)

Indian Tuition. Intent language is added to pay for unfunded Indian Tuition Waiver costs from General Fund/General Purpose unreserved balances at the close of FY 2007-08. (Sec. 451)

Research Commercialization Plan. If a State university does not submit its plan by January 15, 2009, then that university will not be eligible to receive an allocation from the Technology Commercialization Incentive Fund when it is established. (Sec. 464)

Timely Graduation. Intent language is added for State universities to provide sufficient counseling and limit changes to general graduation requirements during a student's enrollment, to facilitate timely graduation of all students. (Sec. 471)

Tuition Rebate. Intent language is added for a State university to rebate to students any amount of the 2007-08 academic year tuition increase that was based on the assumption that the August 2007 delayed payment would not be repaid. (Sec. 472)

Status of Nursing Education. A new report from the Department of Labor and Economic Growth is required regarding the number of nursing degree programs offered, available openings for new nursing students, faculty needed to expand nursing education, and any barriers there may be to the employment of more nurses in Michigan. (Sec. 715)

Revenue Sharing Payments To Counties

Gross	2,375,700
Restricted	2,394,600
GF/GP	(18,900)

In FY 2004-05, the State required counties to accelerate their collection of operating taxes over a period of three years and place the revenue into a reserve fund that would replace restricted revenue historically distributed to counties under the Glenn Steil State Revenue Sharing Act. If appropriated, the Act provides for a distribution to counties that have depleted the reserve fund. During FY 2007-08, Tuscola County depleted its reserve fund and received a payment of \$18,900. Public Act 261 of 2008 appropriates \$2,394,600 in restricted revenue sharing money to counties in an effort to ensure that the combination of the payment plus any withdrawals will total the amount a county would be allowed to withdraw if the reserve fund had a sufficient balance.

In FY 2007-08, this appropriation was made from General Fund money, rather than restricted sales tax revenue, as had been done historically.

F. PROGRAM TRANSFERS - NONE

G. OTHER ISSUES

1. Revenue Sharing Payments in FY 2007-08 and FY 2008-09

Public Act 261 of 2008 appropriates revenue sharing payments for FY 2008-09. Gross revenue sharing payments are estimated and appropriated at \$1,086,919,600 in FY 2008-09, an increase of \$10,474,000, or 0.8%, from FY 2007-08 actual payments. The gross appropriation includes \$212,000 in General Fund appropriations to a local unit under the control of an emergency financial manager (Highland Park) in order to hold it harmless from the FY 2003-04 executive order reductions to revenue sharing.

The gross appropriation also includes \$2,394,500 in restricted revenue appropriations to counties, while in FY 2006-07 the appropriation for this purpose was made from General Fund revenue.

The remaining \$1,084,313,100 appropriated for revenue sharing payments is restricted State revenue and includes payments required under the State Constitution as well as payments authorized under statute. As in FY 2007-08, but unlike in other prior years, the total restricted appropriated amount will no longer be a limit on total revenue sharing distributions: If actual sales tax revenue exceeds the consensus figure and produces a higher constitutional revenue sharing total than the appropriated amount, then a portion of that increase will be distributed without an offsetting reduction in statutory payments. If actual sales tax revenue is less than the adopted estimate, then constitutional revenue sharing payments will be lower and statutory payments will be increased.

The appropriated amount of restricted funds is approximately \$550,600,000 less than the amount suggested by the statutory formula to "fully fund" revenue sharing payments. The text of P.A. 261 of 2008 appropriates \$1,085,531,500 for revenue sharing, including \$406,933,000 for statutory state revenue sharing grants. The \$406,933,000 was the amount of statutory revenue sharing payments forecasted at the May 2008 Consensus conference to be needed in FY 2008-09 to keep local units at the same level of combined constitutional and statutory revenue sharing payments received during FY 2007-08 and provide the "bonus" payments to eligible local units. Subsequent to the enactment of P.A. 261, but prior to the issuance of this report, final FY 2007-08 revenue sharing payments were determined and payments were greater than forecasted in May 2008. As a result, \$408,109,100 would be needed in statutory revenue sharing payments during FY 2008-09 in order to keep each individual local unit at the same level of combined constitutional and statutory payments received during FY 2007-08 and still make the "bonus" payments to eligible local units. Language in P.A. 261 of 2008, Section 950(3), authorizes an increase in the amount appropriated for statutory revenue sharing payments if the specified amount is insufficient, and an

additional \$1,176,100 is needed to meet the requirements regarding the payments to individual local units.

The estimated revenue sharing payments by distribution type are summarized in Table 1. The figures in Table 1 are based on the May 2008 consensus estimates of State revenue.

2. Changes to the Revenue Sharing Payment Distribution Formula for Cities, Villages, and Townships

The Glenn Steil State Revenue Sharing Act (MCL 141.901 et seq.) does not specify a distribution formula for statutory revenue sharing payments to cities, villages, and townships for FY 2007-08 and later years. The Act does make provisions for statutory revenue sharing payments to counties for these fiscal years. The Governor's FY 2008-09 budget recommendation included boilerplate language to specify the distribution of statutory revenue sharing payments to cities, villages, and townships. The appropriation follows the recommendation and specifies the distribution formula in the boilerplate language.

The distribution formula presented in boilerplate attempts to fix the combined total of constitutional and statutory revenue sharing payments to some local units regardless of sales tax collections. Due to previous changes in the revenue sharing distribution formula, approximately 1,035 local units, mostly townships, did not receive a payment under statutory revenue sharing provisions during FY 2007-08. The boilerplate formula allows these local units to receive any increase in constitutional payments, but specifies that any unit receiving a payment under the statutory provisions may not receive more in combined constitutional and statutory revenue sharing payments than it received during FY 2007-08. As a result, in FY 2008-09, the remaining units will receive whatever statutory payment is necessary to bring their combined constitutional and statutory revenue sharing payments up to the same combined level received during FY 2007-08. The boilerplate language increases the statutory appropriation to accomplish this if sales tax collections are below the forecasted level.

Because constitutional revenue sharing payments are expected to decrease by 1.8% in FY 2008-09, all local units are predicted to receive a statutory payment in FY 2008-09 in order to keep each local unit at the same combined payment received in FY 2007-08. However, if sales tax revenue is greater than expected and increases from the FY 2007-08 level, the statutory payment will be eliminated for some local units that received minimal statutory payments during FY 2007-08 and the units will receive only constitutional revenue sharing payments.

3. Special Census Revenue Sharing Payments

No special census payments are appropriated for FY 2008-09. Similarly, no special census payments were appropriated for FY 2007-08.

To receive special census payments a city, village, or township had to be certified to be eligible by June 30, 2007. To be eligible, the city, village, or township must have a population increase of 10.0% or more from the previous Federal decennial census, as determined by a special census.

County payments reflect payments made to hold counties harmless for the depletion of revenue sharing reserve funds created as part of the FY 2004-05 budget. In FY 2007-08 these payments (\$18,854) were made from General Fund revenue.

ECONOMIC FORECAST AND REVENUE ESTIMATES

A. ECONOMIC FORECAST

The economic forecast on which the enacted FY 2008-09 State budget was based is the consensus economic forecast adopted at the May 2008 Consensus Revenue Estimating Conference. Under this consensus economic forecast, the U.S. economy will grow in 2008 at its slowest rate of growth since the 2001 recession and then will improve only modestly in 2009. In fact, the rate of economic growth forecast for the U.S. economy for 2009 is weaker than the rates of growth experienced each year from 2003 to 2007. Michigan's economy has been struggling for seven consecutive years and it is not expected to turn around in 2008 or 2009. The structural changes in the motor vehicle industry that have adversely affected Michigan's economy since 2001 are expected to continue to unfold in 2008 and 2009. These ongoing structural changes combined with the relatively weak level of economic activity forecast nationally mean that Michigan's economic struggles will continue through 2009. As a result, Michigan employment and personal income adjusted for inflation are expected to decline in both 2008 and 2009. The highlights for the economic outlook for both the U.S. and Michigan economies are as follows:

1. U.S. Economy

- Real Gross Domestic Product (GDP) will rise an estimated 1.8% in 2009, representing an improvement from the 1.1% increase forecast for 2008, but slower than the 2.8% and 2.0% rates of growth experienced in 2006 and 2007, respectively. The primary factors that will prevent the U.S. economy from growing in excess of 2.0% in 2009 will be high energy prices and continued weakness in the housing market, both of which will have negative repercussions on consumer spending.
- Employment is expected to decline in 2008, but then begin to grow again in 2009; however, the rate of growth will not be strong enough to keep pace with the increase in the number of people actively looking for work. As a result, the U.S. unemployment rate is expected to edge up to 5.8% in 2009 from 5.3% in 2008.
- Light vehicle sales are expected to decline to 14.9 million units in 2008 from the 16.1 million units sold in 2007. In 2009, light vehicle sales are not expected to experience much improvement.
- Inflation is expected to increase in 2008 due to the significant run-up in energy prices, but then ease back to a more moderate level in 2009. In 2007, the general price level, as measured by the U.S. Consumer Price Index, rose 2.8%. In 2008, the steep rise in energy prices will boost inflation to 4.1%, but in 2009 it is expected to settle back to a rate of 2.9%.

2. Michigan Economy

- Employment in Michigan has steadily declined since the summer of 2000 and it is expected to continue falling in 2008 and 2009. In 2007, wage and salary employment declined 1.5% to 4,262,000 workers. In 2008, wage and salary employment will fall another 1.8% to an estimated 4,185,000 workers. Employment will continue to trend down in 2009 to an estimated 4,123,000 workers, which represents a decline of 1.5%.
- The projected decline in employment will push Michigan's unemployment rate up from the 7.2% recorded in 2007 to an estimated 7.6% in 2008 and 8.3% in 2009.
- Due largely to the projected decline in wage and salary employment, total wage and salary payments to workers in Michigan are expected to show little improvement in 2008 and 2009. Total payments to wage and salary workers are expected to remain essentially unchanged in 2008 from the 2007 level and then edge up by only 0.7% in 2009. Adjusting for inflation, wage and salary payments are projected to be down 2.8% in 2008 and 1.8% in 2009.

- Personal income, the total income received by individuals, will increase at an estimated rate of 1.9% in 2009, which will be up from the 1.4% increase expected in 2008. Given the weak rates of growth in wage and salary income expected in 2008 and 2009, most of this projected increase in Michigan personal income will be due to increases in unearned income.
- Inflation in Michigan, as measured by the Detroit Consumer Price Index, will measure 2.6% in 2009, which will be essentially unchanged from the 2008 level, but up from the 1.6% experienced in 2007.

B. GENERAL FUND/GENERAL PURPOSE AND SCHOOL AID FUND REVENUE ESTIMATES

General Fund/General Purpose and School Aid Fund revenue will total an estimated \$23.0 billion in FY 2008-09, which is down 0.2% from the \$23.1 billion expected to be generated in FY 2007-08. The revenue that will be collected in FY 2008-09 includes two major types of revenue: 1) revenue from ongoing revenue sources, and 2) revenue from various revenue adjustments and one-time sources. The projected levels of revenue from ongoing revenue sources for these two fiscal years are the estimates adopted at the May 2008 Consensus Revenue Estimating Conference. The estimates of total revenue, as well as a breakdown between these two types of revenue, are presented in [Table 1](#) for both the General Fund/General Purpose budget and the School Aid Fund for FY 2007-08 and FY 2008-09.

1. General Fund/General Purpose Revenue

- In FY 2008-09, GF/GP revenue will total an estimated \$9.7 billion, representing a decline of 4.4% or \$445.1 million from the revenue estimated for FY 2007-08, as shown in [Table 1](#). This decline will be due to a projected smaller beginning balance, a decline in the revenue generated from ongoing sources due to tax policy changes, and a slight reduction in the amount of revenue that will be generated from revenue adjustments.
- The balance that will be carried over from FY 2007-08 is expected to total \$139.9 million, which is down from the \$259.1 million that was carried into FY 2007-08.
- Revenue from ongoing sources will total an estimated \$8.88 billion, which is down 3.0% or \$279.5 million from the FY 2007-08 estimated level.
- This decline in GF/GP revenue from ongoing sources is principally due to the following factors:
 - The new earned income tax credit will have its initial revenue impact in FY 2008-09 and will reduce income tax revenue an estimated \$133.6 million.
 - The amount of the Michigan Business Tax that is earmarked to the School Aid Fund will more than double in FY 2008-09, which will reduce GF/GP revenue an estimated \$388.0 million.
 - Casino tax revenue going to the General Fund will be eliminated because all three of the Detroit casinos will be in their new facilities by the end of FY 2007-08.
- Various revenue adjustments also will generate an estimated \$659.1 million in GF/GP revenue in FY 2007-08. Most of this revenue will be due to a reduction in revenue sharing payments totaling \$550.6 million. In addition, short-term borrowing costs (negative interest revenue) totaling \$45.0 million will be shifted to the School Aid Fund, \$57.0 million will be transferred from other funds, and \$6.5 million will be generated by the sale of some State property.

2. School Aid Fund

- Revenue going to the School Aid Fund (SAF) will total an estimated \$13.4 billion in FY 2008-09. This represents an increase of 3.2% or \$412.7 million from the SAF revenue estimate for FY 2007-08. The SAF revenue estimate is presented in [Table 1](#).
- Revenue from ongoing taxes and net lottery revenue earmarked to the SAF will total an estimated \$11.7 billion, up 2.9% from FY 2007-08.
- This projected increase in earmarked revenue overstates the true increase in underlying SAF revenue.
 - The revenue generated by the earmarked taxes, excluding the Michigan Business Tax, is projected to be down 0.5% or \$54.2 million, while the Michigan Business Tax revenue earmarked to the SAF will increase from \$341.0 million in FY 2007-08 to \$729.0 million in FY 2008-09.
 - Therefore, all of the increase in earmarked SAF revenue is due to the increased Michigan Business Tax earmarking.
 - However, most of this increase in the Michigan Business Tax earmarking is intended to reimburse schools for local property taxes they will lose because of the personal property tax reductions that were enacted as part of the overall change in business taxes.
 - Adjusting for the earmarking of this large increase in Michigan Business Tax revenue to the SAF, which will be directly offset by increased SAF expenditures, reveals that earmarked SAF revenue will be down slightly in FY 2008-09 compared with the estimated level for FY 2007-08.
- In addition to the revenue from the ongoing earmarked taxes, the SAF will receive an estimated \$1.6 billion from two sources: Federal aid will total an estimated \$1.56 billion and a grant from the General Fund will total \$43.0 million.

C. BUDGET AND ECONOMIC STABILIZATION FUND

Michigan's cyclical economy can produce significant swings in the rate of growth, or decline, in tax revenue from one year to the next. To help smooth the flow of revenue over the economic cyclical swings, Michigan created the Counter-Cyclical Budget and Economic Stabilization Fund in 1977. This fund, more commonly referred to as the Budget Stabilization Fund (BSF), is designed to be a cash reserve to which the State adds money during good economic times and from which it withdraws money during poor economic years. Having the money available during poor economic years helps the State avoid having to cut spending and/or increase taxes, and therefore helps stabilize the State budget and the tax structure.

Two formulas based on personal income growth and the unemployment rate are used to reveal when economic conditions are right for transfers into and out of the BSF to occur; however, all transfers into and from the BSF must be appropriated by the Legislature and approved by the Governor. In addition, the Legislature and the Governor may appropriate funds into and from the BSF even if these formulas do not trigger a transfer. Historically, most of the BSF transactions have not been directly tied to the formulas, but have simply been made of the will of the Legislature and Governor.

As shown in [Table 2](#), the BSF ended FY 2006-07 with a balance of only \$2.1 million and at the end of FY 2007-08 the ending balance is expected to total \$2.2 million. The enacted budget for FY 2008-09 does not appropriate any funds from or to the BSF. As a result, it is estimated that the BSF will end FY 2008-09 with a balance of \$2.3 million.

D. CONSTITUTIONAL REVENUE LIMIT

The Michigan Constitution places a limit on the amount of revenue State government may collect in any fiscal year. The limit essentially requires that total revenue, excluding Federal aid, not exceed 9.49% of personal income.

- As shown in Table 3, revenue subject to the limit has been well below the limit in recent years and revenue is expected to remain considerably below the constitutional limit in FY 2008-09.
- In FY 2007-08, revenue subject to the limit will fall below the limit by an estimated \$4.98 billion or 15.4%.
- In FY 2008-09, it is estimated that the gap between revenue and the limit will increase to \$5.93 billion or 17.7%.
